Cookie Policy

Dollarro.com website uses cookies. These are minor text files sent by www server and stored by software of a web browser. When the browser connects to the website next time, the website recognizes the type of device being used by user. The parameters may be read only by the server that has collected the information. Hence cookies facilitate using websites that have been previously visited.

The collected data concern: IP address, type of used browser, language, type of operating system, internet service supplier, time and date, location.

The collected data is used for monitoring and verifying in what way users use our websites, in an attempt to improve the functioning of the system, making the navigation more efficient and problem-free. The monitoring of information is carried out by the tool of Google Analytics, which tracks the actions performed by users on the website.

Cookies identify users and that allows for adjusting the website content to their needs. We use cookie files in order to ensure the greatest convenience of our service and collected data is verified only within Dollarro.com company with a view of optimising the operations.

Our website uses the cookie files as follows:

- "essential" cookie files, which facilitate the usage of services offered by the website, i.e. authentication cookie files used for services that require authentication within the website.

- cookie files that ensure security, i.e. used for detecting any abuses in the field of authentication within the website.

- "performance" cookie files, which enable collecting information on the way the websites is being used.

- "functional" cookie files, which enable saving user's settings and their interface personalization, i.e. in regard to chosen language, region of origin, font size or general appearance of the website.

At any time user can switch off the option of collecting cookies or bring it back by means of changing the settings in the internet browser. However, it must be borne in mind that it is necessary to have the option switched on when using dollarro.com service.
